EXPERIENCE

2015 - Present
EQS Web Technologies, Kochi, Kerala

Senior UI Developer

- Designed, developed, and maintained a scalable Svelte component library used across 20+ global Investor Relations (IR) portals.
- Led migration of legacy UI systems to Svelte/SvelteKit, reducing development time by 40%.
- Improved Core Web Vitals and overall performance by 30–40% through code optimization, lazy loading, and image optimization.
- Implemented WCAG 2.1 AA standards—reduced accessibility errors by 95%+ using semantic HTML and ARIA.
- Delivered multilingual, responsive IR portals and annual report microsites for Fortune 500 and European-listed companies.
- Streamlined front-end workflows using reusable components and optimized Git branching strategies.
- Collaborated closely with backend/API teams, improving code quality and reducing rework.
- Acted as UI owner for enterprise projects, ensuring consistent delivery and client satisfaction.

- Mentored junior developers in Svelte, performance optimization, and accessibility compliance.

| 2013 – 2015 | **Senior UI Developer & Project Lead** |
| Innova Technologies, Sewri, Mumbai | |

- Developed responsive websites using HTML5, CSS3, JavaScript, jQuery, and Bootstrap.
- Built custom templates for Business Catalyst and WordPress platforms.
- Conducted extensive cross-device QA on iPad, iPhone, Samsung, Nexus.
- Led UI project delivery ensuring quality, performance, and browser compatibility.

| 2007 – 2013 | **Sr. UI Engineer** |
| Bloomberg UTV, Worli, Mumbai | |

- Built microsites and portals using HTML, CSS, JavaScript, and jQuery.
- Delivered UI for major shows including Market Guru, The Pitch, Autocar, The Assignment.

EDUCATION

2002	**B.Com**
MG University, Kerala	
1997	**+12 (Plus Two)**
Calicut University	
1995	**Govt. of Kerala**
SSLC	

KEY ACHIEVEMENTS

- Migrated legacy applications to Svelte/SvelteKit, significantly reducing build and delivery time.
- Built reusable UI component libraries standardizing design across global projects.
- Delivered high-performance, WCAG-compliant IR platforms for multinational enterprises.
- Consistently improved accessibility, performance, and scalability across enterprise applications.
