sumeshmon2006@gmail.com
Thrissur, Kerala

Accomplished UI Developer with 15+ years of expertise in designing and developing responsive, accessible, and high-performance web interfaces for enterprise and global clients. Exhibited capability to translate complex UX/UI requirements into scalable front-end solutions, ensuring consistency, usability, and cross-browser compatibility across large-scale digital platforms.

PROFILE SUMMARY

- Front-end Engineer with strong expertise in modern UI architecture using HTML5, CSS3, JavaScript, TypeScript, and Svelte/SvelteKit, focused on building scalable, maintainable, and high-performance web applications
- Proven experience in leading application modernization initiatives, including migration from legacy systems to modern frameworks, resulting in improved build efficiency, faster deployment cycles, and enhanced maintainability.
- Strong background in performance engineering, optimizing load times, rendering efficiency, and runtime responsiveness to deliver improved user engagement across enterprise applications.
- Skilled in designing reusable, component-driven UI systems that ensure consistency, scalability, and faster development across global products.
- Committed to accessibility and inclusive design, with hands-on experience implementing WCAG standards and conducting accessibility testing.
- Experienced in cross-functional collaboration with product, design, and engineering teams, along with technical leadership responsibilities including mentoring developers, improving code quality, and driving engineering best practices

CORE COMPETENCIES

- Front-End Architecture Design
- UI/UX Implementation & Design Translatio
- Responsive & Cross-Platform Web Development
- Web Accessibility (WCAG) & Compliance
- Performance Optimization & Web Vitals
- Component-Based Development & UI Libraries
- Legacy System Modernization & Migration
- Enterprise Web Application Development
- Cross-Functional Collaboration & Technical Leadership

ACHIEVEMENTS

Legacy Application Migration: Led migration of legacy applications to Svelte/SvelteKit while improving build efficiency and reducing delivery timelines.

UI Component Libraries: Developed reusable UI component libraries to standardize design systems and ensure consistency across global enterprise projects.

High-Performance Platforms: Delivered high-performance, WCAG-compliant investor relations (IR) platforms for multinational enterprise clients.

Enterprise Application Improvements: Drove continuous enhancements in accessibility, performance, and scalability across large-scale enterprise applications.

TECHNICAL SKILLS

Front-end Technologies: HTML, CSS, JavaScript, TypeScript, ReactJS

Styling & UI Frameworks: LESS, Sass, Bootstrap

JavaScript Libraries & Frameworks: jQuery, Svelte/ SvelteKit

Design & Prototyping Tools: Dreamweaver, Figma, Photoshop

Design Principles & Practices: Responsive Design, Responsive Web Design

Accessibility & Quality Standards: WCAG, Accessibility Testing

CERTIFICATIONS

- Advanced JavaScript
- Communication Fundamentals certificate
- Communication Skills Personality and Behaviour in Business
- Cross-Cultural Communication
- Master Strategic Thinking & Problem Solving

EDUCATION

B.Com.
Mahatma Gandhi University
2000

WORK EXPERIENCE

Freelance UI/UX Designer & Front-End Developer
Independent / Freelance | Mar 2026 – Present

Deliver freelance UI/UX and front-end work for web experiences, translating client requirements into clear, usable interface design

Create and refine page layouts, responsive components, and interaction patterns with attention to usability, consistency, and visual quality.

Collaborate with clients and stakeholders to understand project goals, iterate on design feedback, and support implementation ready UI deliverables

Senior Software Engineer
EQS Web Technologies | Aug 2015– Feb 2026

Architected and delivered scalable, high-performance web applications, ensured adherence to modern front-end engineering standards, responsive design principles, and WCAG accessibility compliance.

Led end-to-end modernization initiatives, migrated legacy front-end architecture to Svelte/ SvelteKit while improving build efficiency, developer experience, and deployment pipelines.

Defined and drove front-end performance optimization strategies, improved page load times, rendered efficiency, and overall application responsiveness across key products.

Designed and scaled reusable, modular UI component libraries, enabling cross-team consistency, reduced duplicated work, and accelerated feature delivery across global projects.

Partnered with product, design, and back-end teams to translate complex business requirements into scalable, maintainable, and production-grade technical solutions.

Provided technical leadership through code reviews, architecture guidance, and engineering best practices, mentored engineers and fostered a high-performance, quality-driven engineering culture.

Senior UI Developer & Project Lead
Innova Technologies | Feb 2013– Aug 2015

Led full-cycle development of responsive, cross-browser web applications using HTML5, CSS3, and JavaScript, ensured consistent performance across multi-device environments.

Collaborated closely with UX/UI designers to implement pixel-perfect interfaces with strong focus on usability, accessibility, and visual fidelity.

Introduced responsive design and front-end optimization best practices, improved mobile engagement and enhanced user experience across devices.

Managed client requirements, scope definition, and delivery timelines, ensured alignment between business objectives and technical execution.

Optimized front-end performance and SEO structure, contributed to growth in organic traffic through improved page speed, metadata structure, and semantic markup.

Mentored junior developers, contributed to onboarding programs, and helped standardize development workflow and coding practices across teams.

Sr. UI Engineer
Bloomberg TV | Jul 2007– Jan 2013

Developed and maintained interactive web microsites and digital experiences for broadcast programming, supported high-visibility media content.

Collaborated with creative, editorial, and production teams to deliver engaging, brand-aligned user interfaces under tight deadlines.

Ensured cross-browser and cross-device compatibility, delivered consistent user experiences across legacy and modern platforms. Built interactive front-end features and animations that improved user engagement and retention, enhancing audience interaction with digital content.

Led debugging, QA, and performance tuning efforts, improved application stability, load performance, and runtime efficiency.

Supported large-scale CMS migrations and platform updates, ensured seamless transitions with minimal downtime or user impact while establishing front-end best practices.

PERSONAL DETAILS

Languages Known : **English, Hindi & Malayalam**

Date of Birth : 02/05/1980
